

G2D Covid-19 Guidelines

Hi parents,

Thank you for enrolling your child at Got 2 Dance Productions (G2D)! We are so excited to be back at the studio dancing with you! In the interest of everyone's health and safety we have created some studio guidelines in response to COVID-19. We will be following all the current guidelines outlined by Alberta Health Services, and doing our best to maintain a balance between safety while still providing a fun dance experience for our students so that they have an outlet outside of school and home. Circumstances may change throughout the season and we will communicate any changes to families through email.

First, and most importantly, please **do not send dancers that are ill/not feeling well or have come in contact with a confirmed case of COVID-19**. It is important for the health and safety of our staff, dancers and their families that any dancer displaying symptoms of a cold, flu or COVID-19 (cough, fever, runny nose, sore throat) stay home until their symptoms resolve. In addition, if a dancer has travelled outside of Canada, please do not attend classes within 14 days of your arrival home to ensure proper quarantine procedures are followed. If your dancer is feeling ill or has travelled outside of the country, please notify G2D via email.

Drop off and pick up

- The schedule is now organized so that class start and end times are staggered from each other, with each class having a break in between when a new group of students will be entering to allow the instructor to clean and sanitize. The staggered starting and ending times will also help minimize foot traffic coming and going in the studio entryway.
- Dancers should arrive about five minutes before classes begin, enter the studio and wait outside their studio door on the spacers provided. We request that dancers/families do not enter the studio more than 10 minutes prior to class time starting. Dancers are encouraged to dress and get ready at home when possible.
- For our older students who are already familiar with the studio, we will be asking parents to drop off and pick up their dancers outside - similar to what schools are doing.
- In cases where a parent is most likely required to come in (i.e. Kinderdance), we ask that only one family member accompany a child if possible, and that physical distancing is respected within the studio, just like in any other public area. When possible, parents should leave the studio after drop off, or if staying, please respect physical distancing guidelines. If a parent wishes to talk to their dancer's instructor, please call or send an email, as instructors will be using breaks to clean the studio.
- If using the student lounge area in the basement, please maintain physical distance of 2 meters.
- Dancers should keep all of their belongings inside of a labelled dance bag (shoes, clothing, snacks, etc.) that is kept downstairs. Water bottles should be labelled and can be brought into class, but are not to be shared. Water breaks will occur in the studio space only from their own water bottles.
- Snacks are allowed, but please note there will be no microwave access at this time.

Thank you!

In class

- Teachers and assistants will be wearing a mask while teaching in instances where physical distancing guidelines cannot be maintained.
- Students are not required to wear a mask, but are welcome to do so if it is their preference.
- Hand sanitizing will be required when entering the building and before entering the studios.
- Acro: dancers will have their own mat in their designated space during class and each mat will be disinfected after use. Mats will then sit for a week in between uses.
- Temperature checks may be completed before the dancer's first class of the day.
- We have measured the studio spaces to know exactly how many students we can fit in and still adhere to the physical distancing guidelines. No class will have more than 12 dancers.
- Physical distancing will need to be maintained within classes. Studios have been marked to allow for 2m distance between dancers.
- If a dancer has a temperature higher than 38 degrees Celsius or exhibits any symptoms consistent with COVID-19 (cough, runny nose, sore throat) they will be asked to mask and parents will be contacted for immediate pick-up.

Absences/Cancelled classes

- If a dancer is unable to attend a class due to illness, but feels well enough to participate from home, they may attend a class virtually through Zoom. Please email us if this is the case and we will send a Zoom link.
- If an instructor is unable to attend class due to illness, but feels well enough to participate from home, we will also have the ability for them to teach the class through Zoom. Another instructor will be present in the building and will monitor the class.
- Refunds will not be provided for absences due to illness. G2D will attempt to reschedule classes when possible or run classes virtually. If you have an extenuating circumstance that you would like to discuss, please feel free to contact us.

We know the last several months have proven to be challenging times full of change and uncertainty. We hope that dance can be a positive outlet for children during these times. If you have any questions or concerns, please feel free to contact us.

Thank you!
Anne-Alisa & Gjenna
